Public Health Notice

Due to the dangers posed by K2, Spice, bath salts and similar synthetic designer drugs, the Washtenaw County Health Officer is requesting all merchants to immediately discontinue the sale of these products within the jurisdiction.

In cooperation with law enforcement agencies throughout the County, the Public Health Department would like to recognize those retailers that have proactively stopped selling these substances by offering a decal that can be displayed indicating the business pledges to not sell K2 or other synthetic designer drugs.

The Public Health Department is prepared to issue orders to discontinue the sale of these drugs under the authority of the Michigan Public Health Code to individual merchants that do not voluntarily stop the sale of these products.

Richard M. Fleece
Washtenaw County Health Officer
