

Pall Life Sciences 1,4-Dioxane Plumes, Assorted Well Locations, Prohibition Zone (PZ), and Proposed PZ Expansion Area Washtenaw County, Michigan

- KEY**
- | | | | |
|------------------|-----------------------------------|---|--|
| Monitoring Wells | Hydrogeologic Test Borings | Well Prohibition Zone | Estimated & Historical Plume (>1 ppb) |
| Injection Wells | Abandoned Wells | Proposed Well Prohibition Zone Expansion Area | --Depiction represents sampling locations that have detections of 1,4-dioxane greater than 1 part per billion (ppb) or historical detections greater than 1 ppb. |
| Extraction Wells | Horizontal Pipeline/Well Screen | | E Plume (1,4-dioxane >85 ppb) |
| Artesian Wells | Surface Water Sampling Location | | Western Plume (1,4-dioxane >85 ppb) |
| Misc. Wells | Residential Wells | | Core & Evergreen Plume (1,4-dioxane >85 ppb) |
| | U of M Research Water Supply Well | | |
