Independent Auditor's Report

To the Board of Education
Public Schools of the City of Ann Arbor, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Public Schools of the City of Ann Arbor, Michigan (the "School District") as of and for the year ended June 30, 2012, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Public Schools of the City of Ann Arbor, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Public Schools of the City of Ann Arbor, Michigan as of June 30, 2012 and the respective changes in financial position, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the budgetary comparison schedules, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Board of Education Public Schools of the City of Ann Arbor, Michigan

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Public Schools of the City of Ann Arbor, Michigan's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The accompanying schedule of comparative statistics, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with Government Auditing Standards, we have also issued a report under separate cover dated October 30, 2012 on our consideration of Public Schools of the City of Ann Arbor, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

October 30, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

This section of the annual financial report presents a discussion and analysis of the School District's financial performance during the year ended June 30, 2012. It is to be read in conjunction with the District's financial statements, which immediately follow this section.

Using This Annual Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the Ann Arbor Public Schools financially, as a whole. The District-wide Financial Statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a long-term view of those finances. The Fund (Governmental) Financial Statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements, by providing information about the School District's most significant funds - the General Fund, the 2005 Sinking Fund, the 2010 Sinking Fund and the 2012 Bond Fund - with all other funds presented in one column as a nonmajor fund. The remaining statements, the Statement of Fiduciary Net Assets and the Statement of Changes in Fiduciary Net Assets, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

Management's Discussion & Analysis (MD&A) (Required Supplemental Information)

Budgetary Information for Major Funds

Other Supplemental Information

Reporting the School District as a Whole - District-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The Statement of Net Assets (page 11) and the Statement of Activities (page 12), report information on the School District as a whole and its activities in a way that helps the reader answer this question. These statements are prepared to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

Page 3 Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

These two statements report the School District's net assets- the difference between assets and liabilities, and are used as one way to measure the School District's financial health, or financial position. Over time, increases or decreases in the School District's net assets - as reported in the Statement of Activities - are one indicator of whether its financial health is improving or deteriorating.

The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits, as do commercial entities. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the School District.

The Statement of Net Assets and Statement of Activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, supporting services, community services, food services, athletic, recreation, child care, debt service and capital projects. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund (Governmental) Financial Statements

The School District's governmental fund financial statements (page 13 & 15) provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by State law and by bond covenants. However, the School District establishes individual funds to help control and manage money for particular purposes (the Food Service Fund is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (like millage funded construction funds used for voter approved capital projects). These funds are identified in the supplemental information starting on page 57. The governmental funds of the School District use the following accounting approach:

Governmental funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year-end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund financial information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. A reconciliation is provided which identifies the differences between governmental financial statements and the Statement of Net Assets and the Statement of Activities.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity and private purpose trust funds. All of the School District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. These activities are excluded from the School District's other financial statements because the School District

Page 4 Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The School District As A Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets as of June 30, 2012 and 2011, respectively:

TABLE 1	Governmental Activities (in millions)			
			June 30	
		2012		2011
Current and other assets Capital assets	\$	83.6 251.0	\$	62.9 256.6
Total assets		334.6		319.5
Current liabilities		35.8		33.1
Long-term liabilities Total liabilities		196.3 232.1		178.1 211.2
Net assets:		02 5		70.0
Invested in property and equipment, net of related debt Restricted Unrestricted		83.5 9.4 9.6		79.0 17.3 12.0
Total net assets	\$	102.5	\$	108.3

The above analysis focuses on the net assets (Table 1). The School District's net assets were \$102.5 at June 30, 2012, compared with \$108.3 million at June 30, 2011. For June 30, 2012, capital assets, net of related debt was \$83.5 million compared to \$79.0 million from the prior year. Capital assets, net of related debt, compares the original cost, less depreciation, of the School District's capital assets to long term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net assets for day-to-day operations. Of the remaining amount of net assets, \$9.6 million was unrestricted compared to \$12.0 million from the prior year.

Page 5

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

The \$9.6 million in unrestricted net assets of governmental activities at June 30, 2012, represents the accumulated results of all past years' operations. The unrestricted net asset balance is used to provide working capital and cash flow requirements as well as providing for future uncertainties. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the School District as a whole are reported in the Statement of Activities (Table 2), which shows the changes in net assets for fiscal years June 30, 2012 and 2011, respectively.

TABLE 2	Governmental Activities (in millions)			
		•	June 30	
Revenue		2012	rane 30	2011
Program revenue:		Service Service .		
Charges for services Operating grants and state categoricals	\$	9.5 39.4	\$	9.3 40.9

Functions/Programs Expenses				
Instruction		131.0		126.7
Support services Community services		76.2 .7		79.6 .8
Food services		4.4		3.8
Athletics		2.9		3.3
Recreation and Community services		6.0		5.9
Interest on long-term debt		8.4		8.8
Capital outlay (not capitalized)		1.1		1.1
Other expenses		1.6		.7
Depreciation (unallocated) Total expenses		.1 232.4		230.8
Increase (Decrease) in net assets	\$	(5.8)	\$	2.5

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

As reported in the Statement of Activities, the cost of all governmental activities for the fiscal year ending June 30, 2012 was \$232.4 million compared to \$230.8 million from the prior year. For the year ended June 30, 2012, athletics, food service, recreation and community education and instruction (tuition) were partially funded from those who benefited from the programs (\$9.5 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$39.4 million). The remaining "public benefit" portion of the governmental activities was funded with \$95.6 million in taxes, \$79.4 million in State Foundation Allowance, and \$2.6 million in other revenues, such as, interest, rentals and general revenue.

The School District experienced a decrease in net assets of \$5.8 million compared with an increase in net assets of \$2.5 million from the prior year. The decrease is due primarily to a reduction of \$3.6 million in other revenue as a result of the end of both the ARRA Stabalization Grant and the Edu Jobs Grant, and a decrease of \$2.5 million in Property Tax revenue.

The School District's Funds

As noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$55.5 million compared with \$37.2 million from the prior year, which is an increase of \$18.3 million from the prior year. The primary reason for the increase relates to the \$27.1 million increase in the 2012 Bond Fund, and an increase of \$1.5 million in the 2010 Sinking Fund off set by a decrease of \$3.9 million in the Combined General Fund, and a decrease of \$6.0 in the 2005 Sinking Fund.

The General Fund fund balance is necessary for cash flow needs, due to the delayed receipt of revenue. Over 18% of the State aid foundation (or approximately \$15.7 million) is received in July and August, after the District's fiscal year end of June 30th, and after the majority of the General Fund expenditures have occurred. In addition, the School District does not receive its first State aid payment for the new fiscal year until October 22, 2012. However, the School District's new fiscal operations begin July 1. An analysis of cash flow requirements indicate that the District maintain a portion of its General Fund fund balance equal to approximately 45 days of operating expenditures, to cover the operations until the District begins to receive tax revenue in mid August. State aid revenue represents approximately 47.5% of the District's total General Fund revenue, tax revenue is approximately 38.7%. The fund balance is also used to fund future expenditures, which may exceed current budget or for unforeseen increases in expenditures or reductions in revenue.

General Fund Budgetary Highlights

Over the course of the year, the School District revised its budget as new financial information was obtained. State law requires that the budget be amended to insure that expenditures do not exceed appropriations and available fund equity. The final amendment to the budget was adopted during the third quarter financial

Page 7 Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

review. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the required supplemental information (page 31).

There were revisions made to the 2011-12 General Fund original budget. Budgeted revenue and other financing sources increased approximately \$.9 million. The majority of the change was due to a \$1.6 million increase to adjust the budget for State Aid Best Practices, a \$1.7 million increase in Local Revenue for receipt of the 2010 tax year Scio DDA excess capture, a \$2.6 million increase for receipt of Medicare fee for service and Special Education Transportation reimbursement from the Intermediate School District. This was off set by a \$5.0 million decrease in Special Education reimbursements from the State. Total budgeted expenditures and other financing uses increased approximately \$2.2 million as a result of an adjustment to increase Pupil transportation expenditures by \$.8 million and an increase of \$1.4 million to Instruction for 14 additional FTE's.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2012, the School District had \$449.2 million invested in a broad range of capital assets, including land improvements, buildings, and equipment compared with \$445.8 million from the prior year. Net capital assets represents a net increase (including additions and deductions) of approximately \$5.4 million, or 1.2%, from last year.

TABLE 3	June 30				
		2012		2011	
Assets not being depreciated - Land	\$	2.5	\$	2.5	
Land improvements Building and building improvements Equipment Vehicles		33.4 383.2 25.9 6.7 449.2		32.9 374.0 31.8 7.1	
Total capital assets Less accumulated depreciation Net capital assets		200.6		191.8	
being depreciated	\$	248.6	\$	254.0	

This year's additions of \$12.3 million included land improvements, building construction, building renovations, and equipment. Of the \$12.3 in additions, \$6.0 million were financed from the 2005 Sinking fund, \$5.9 from the 2010 Sinking Fund, and the remaining additions are from other various funds. Approximately \$1.1 million of the capital purchases for all funds were not capitalized and were expensed when received. These capital purchases meet the Michigan Department of Education's definition of a fixed

Page 8 Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

asset (for account code classification), however, the purchase amount is below the District's capitalization threshold of \$10,000. Detailed information about capital assets is presented in the Notes to the Financial Statements (footnote 6).

Debt

At the end of this year, the School District had \$185.6 million in bonds outstanding versus \$176.2 million last year, or an increase of 5.34%. Those bonds consisted of:

TABLE 4	June 30				
	-	2012		2011	
Bonds financed by tax levy	\$	185.6	\$	176.2	

The state limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the district issues "Qualified Debt", that is debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District has no outstanding unqualified general obligation debt as of June 30, 2012.

Economic Factors and Next Year's Budgets and Rates

Elected officials and administration consider many factors when setting the School District's fiscal year budgets. One of the factors affecting the budget is student count. The State Foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2012-13 fiscal year is 10% of the February 2012 and 90% of the October 2012 student counts. The 2012-13 budget was adopted in June 2012, based on an estimate of students that will be enrolled in September 2012. Based on the unaudited October 2012 count, enrollment is anticipated to be lower than the estimates used in creating the 2012-13 budget.

The Foundation Allowance makes up approximately 80% of total General Fund revenue. Under State law a district cannot assess additional property tax revenue, other than the current authorized millages, for general operations. As a result, district funding is heavily dependent on the State's School Aid Fund. In the 2011-12 budget, the District did not anticipate an increase in the foundation allowance. Due to the current economic conditions it is unclear whether there will be an adjustment, negative or positive, to the 2012-13 foundation. The District will amend the budget to reflect any change by the State in the foundation allowance.

State law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, annually the Board of Education and Administration must evaluate the needs of the district and balance those needs with state prescribed available unrestricted resources. Once the final student count is validated, and student/teacher placements are finalized, the revenue budget will be amended for the pupil count reduction and for any changes in the foundation allowance.

Page 9 Continued

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2012

The 2012-13 original budget assumptions assumed that the District would use \$6.0 million of fund equity to cover recurring operational expenditures. The original budget assumed cost savings of \$4.7 million. For the fiscal years 2003-04 thru 2011-12 the District utilized approximately \$24.3 million of fund equity to balance excess expenditures over revenues received. The District's Combined General Fund fund equity was \$40.9 million as of June 30, 2003 and is \$16.6 million as of June 30, 2012.

For the 2011-12 school year, salary and benefits accounted for approximately 86% of the total operating budget. The District spent \$144.3 million for instructional and instructional support salary and benefits, \$9.6 million for maintenance and transportation salary and benefits and \$6.3 million for all other general fund salary and benefits. In addition, the District spent \$10.7 million for contracted services (maintenance, legal, consultants, field trips), \$5.7 million for utilities and building insurance and \$2.2 million for the District's athletic programs. The above total costs of \$178.8 million account for over 95.6% of the District's operating budget.

Contacting the School District's Financial Management

The financial report is designed to provide the School district's citizens, taxpayers, customers, investors, and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the business department at 2555 South State Street, Ann Arbor, Michigan, 48104.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FINANCIAL REPORTING ENTITY

The Public Schools of the City of Ann Arbor (the "School District") is subject to the oversight responsibility of a Board of Education. The 2011-12 Board consists of seven members elected at large for four year overlapping terms. The primary responsibilities of the Board of Education include review of the School District's annual budget, approval of School District policies and selection and evaluation of the School District's Superintendent.

The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate, component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

DISTRICT-WIDE FINANCIAL STATEMENTS

The district-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. The district-wide financial statements include capital assets, net of accumulated depreciation, and long-term obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, unrestricted state aid and inter-governmental payments and other items not properly identified as program revenues are reported as general revenue.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of inter-fund activity has been eliminated from the district-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net assets or fund balances are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order committed, assigned and unassigned.

FUND-BASED FINANCIAL STATEMENTS

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both

Page 18 Continued

measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Property taxes received within 60 days of year-end, unrestricted state aid, inter-governmental grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when the School District receives cash.

Employee compensated absences, unemployment and self-insurance liabilities expected to be liquidated with current financial resources are accrued in the appropriate governmental fund.

The fund financial statements focus on major funds rather than fund types. The School District reports the following major governmental funds:

<u>General Fund</u> - The General Fund is the District's primary operating fund. It accounts for all resources, including Grant Programs, except those required to be accounted for in another fund.

<u>2005 and 2010 Sinking Funds</u> - The Sinking Funds are used to account for construction and repair of buildings. The School District has complied with the applicable provisions of section 1212(I) of the State of Michigan School Code, and the State of Michigan Department of Treasury letter No. 01-95.

2012 Bond Building and Site Fund – The 2012 Bond Building and Site Fund is used to record the bond proceeds and to account for the financial resources to be used for the construction or acquisition of buildings and equipment. For the 2012 bond issuances, the School District has complied with the applicable provisions of section 1351(a) of the Revised School Code. The cumulative expenditures as of June 30, 2012 for the 2012 Bond Fund are \$263,072.

Additionally, the following fund types are reported as a combined non-major fund in the governmental financial statements and as an individual fund type in the supplemental information:

<u>Special Revenue Funds</u> - The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are restricted to expenditures for specified purposes. The School District Special Revenue Funds include the Food Service Fund, Recreation Fund and the Child Care Fund. Any operating deficit generated by this activity is the responsibility of the General Fund.

<u>Debt Service Funds</u> - The Debt Service Funds are used to account for the accumulation of resources for, and the payment of, bond principal, interest and paying agent fees.

<u>2002 Sinking Fund</u> - The Sinking Fund are used to account for construction and repair of buildings. The School District has complied with the applicable provisions of section 1212(I) of the State of Michigan School Code, and the State of Michigan Department of Treasury letter No. 01-95.

<u>Capital Projects Funds</u> - The Capital Projects Funds are used to account for financial resources to be used for the acquisition of land and construction or acquisition of buildings and equipment. The Capital Projects Fund includes the 2008, 2006, 2004, the 1990 and 1995 Bond issues and the Millage and Capital Needs Fund.

The Millage and Capital Needs Fund is also used to purchase school buses, technology and textbooks. For the 2008, 2006, 2004, 1990 and 1995 bond issuances, the School District has complied with the applicable provisions of section 1351a of the Revised School Code.

Page 19 Continued

<u>Fiduciary Funds</u> - Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent. Fiduciary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations.

<u>Student Activities Agency Fund</u> - The Student Activities Agency Fund is used to account for assets held as agent for various student activities.

<u>Private Purpose (Scholarship) Trust Fund</u> - The Trust Fund is used to account for donated assets which will be awarded to students or awarded to support student learning. Private purpose trust funds are used to account for resources legally held in trust for the benefit of individuals and organizations outside the District.

Each fund is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that are comprised of assets, liabilities, fund balance, revenues and expenditures. School resources are allocated to and accounted for in individual funds based upon the purposes for which they are spent and the means by which spending activities are controlled.

BASIS OF ACCOUNTING

Budgetary Data

Unliquidated encumbrances, of approximately \$1.1 million, at the end of the year are carried forward to the subsequent year. Budgets for various Grant Programs are prepared using a different fiscal year than that of the School District.

Cash and Investments

Cash includes cash on hand, demand deposits, and short term investments with maturity of 3 months or less. Investments consist generally of treasury notes, investment pools and U.S. Governmental Agency instruments. They are recorded at fair value, based on quoted market prices, or estimated fair value.

Restricted Assets

The unspent bond proceeds of the Capital Projects Funds require amounts to be set aside for construction. In addition, the unspent property taxes levied in the Debt Service funds are required to be set aside for future bond principal and interest payments. These amounts have been classified as restricted assets. When an expense has been incurred for purposes for which both restricted and unrestricted net assets are available, it is the District's policy to first apply restricted resources.

Due To/From (Receivables)/(Pavables), and Taxes and Accounts Receivables

In general, outstanding balances between funds are reported as "due to/from other funds." All property tax and other receivables are shown without an allowance for uncollectible amounts as the District considers all receivable to be fully collectible.

<u>Inventories</u>

Inventories are valued at cost using the first-in, first-out method. Inventory recorded in the General Fund consists of transportation supplies for the School District. The Food Service Fund inventory consists of food, paper goods and United States Department of Agriculture Commodities. The inventory items are recorded as expenditures at the time of use in their respective funds. For the Schedule of Expenditures of Federal Awards (SEFA), commodities are recorded as expenditures when received from the Government.

Capital Assets

Capital assets, which include land, buildings, equipment and vehicles are reported in the applicable district—wide statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of 5 years. Such assets are recorded at historical cost or estimated historical cost when purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The District does not have infrastructure type assets.

Page 20 Continued

Buildings, Building Improvements, Land Improvements, equipment and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings, Building Improvements, and
Land Improvements
Equipment
Vehicles

20 - 50 years
5 - 20 years
5 - 10 years

Compensated Absences

The liability for compensated absences reported in the district-wide statements consists of earned but unused termination benefits, accumulated vacation and sick leave benefits. A liability for these amounts is reported in the governmental funds as it comes due for payment.

Long-Term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

<u>Fund Equity</u> – In the fund financial statements, governmental funds report the following components of fund balance:

- · Nonspendable: Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- Restricted: Amounts that are legally restricted by outside parties, constitutional provisions or enabling legislation for use for a specific purpose.
- Committed: Amounts that have been formally set aside by the Board of Education for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- Assigned: Intent to spend resources on specific purposes expressed by the Board of Education.

<u>Risks and Uncertainties</u> – The School District invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the balance sheet.

Comparative Data - Comparative data is not included in the School District's financial statements.

<u>Upcoming Accounting Pronouncement</u> - GASB Statement No. 63 - Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, was issued by the GASB in June 2011 and will be effective for the School District's 2012-2013 fiscal year. The statement incorporates deferred outflows of resources and deferred inflows of resources, as defined by GASB Concepts Statement No. 4, into the definitions of the required components of the residual measure of net position, formerly net assets. This statement also provides a new statement of net position format to report all assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Once implemented, this statement will impact the format and reporting of the balance sheet at the government-wide level and also at the fund level.

In March 2012, the GASB issued GASB Statement No. 65, Items previously Reported as Assets and Liabilities, which is required to be implemented for financial statements for periods beginning after December 15, 2012. Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows and inflows of resources, certain items that were previously reported as

Page 21 Continued

assets and liabilities. This statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources. Statement No. 65 will be implemented for the School District as of June 30, 2014.

In June 2012, the GASB issued GASB Statement No. 68, Accounting and Financial Reporting for Pensions. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This net pension liability that will be recorded on the government-wide, proprietary and discretely presented component units statements will be computed differently than the current unfunded actuarial accrued liability, using specific parameters set forth by the GASB. The Statement also enhances accountability and transparency through revised note disclosures and required supplementary information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this Statement are effective for financial statements for the year ended June 30, 2015.

CASH AND INVESTMENTS

Cash and investments at June 30, 2012 are comprised of the following:

		Governmental Activities	Fiduciary Funds	Total Primary Government
Cash on hand and in interest bearing accounts	\$	5,601,753	1,033,463	6,635,216
Investments Restricted assets		9,219,901 39,716,381		9,219,901 39,716,381
То	tal \$	54,538,035	1,033,463	55,571,498

The breakdown between deposits and investments for the school district follows:

Deposits (checking, savings, and certificates of deposit)	\$	6,622,871
Investments in securities, mutual funds, etc.		48,936,282
Petty cash (cash on hand)		12,345
Total Cash and Investments	\$	55,571,498

State statutes (and the School District's investment policy) authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The District is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, banker's acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are comprised of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The District has designated 4 banks for deposit of its funds.

The pooled investments consist of a Michigan School District Liquid Asset Fund of \$36,200,654, the JP Morgan Chase Bank School District Operating Trust Fund of \$4,525,167 and the MBIA Michigan Class Fund of 8,089,428.

The District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial credit risk of bank deposits:

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The District's investment policy limits investments to the types of securities allowed by state law and pre-qualifies the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business using the criteria established in the investment policy. At year-end, the carrying value of the District's cash deposits, and petty cash was \$6,635,216 representing bank balances totaling \$9,459,797 less outstanding checks plus other net reconciling items. Of the bank balance, \$6,107,742 was covered by Federal Depository Insurance Corporation (FDIC) or held directly by the School District. The remaining \$3,352,055 was uninsured and uncollateralized. Current banking laws do not require

Page 22 Continued

collateralization. The District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the District evaluates each financial institution it deposits funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial credit risk of investments:

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's credit risk is minimized by limiting investments to types of securities allowed by state law and by pre-qualifying the financial institutions, broker/dealers, and advisors with which the District will do business with using the criteria established in the Investment Policy.

Interest rate risk:

Interest rate risk is the risk that the value for investments will decrease as a result of a rise in interest rates. The District minimizes interest rate risk by investing funds in primarily shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Credit risk:

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The District did not invest in commercial paper for the 2011-12 school year.

Concentration of credit risk:

The District's investment policy limits the amount the District may invest in any one insurer based on the percentage of the bank's capital. The percentage of the District's investments by financial institution, is as follows:

Institution	Total by Institution	Investments	% of Total Investments
Comerica	3,943,742		0.00%
JP Morgan Chase	10,041,222	4,525,167	9.27%
MBIA Class	8,089,428	8,089,428	16.57%
MILAF/PFM	36,200,654	36,200,654	74.16%
	58,275,046	48,815,249	100.00%

Foreign currency risk

Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value, as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investments in foreign currency.

At year-end, the financial institutions' bank deposit and investment balances (by fund) and the credit rating (if applicable) is as follows:

Fund	Financial Institution	Deposit Account Balance	investments Balances	Total Cash & Investments	Rating/Agency
Governmental:					
General	JP Morgan Chase Bank	5,516,055	4,525,167	10,041,222	A-1 (Standard & Poor's)

3. RESTRICTED ASSETS

The balances of the restricted asset accounts are as follows:

		Activities
Unspent bond proceeds and related interest		\$ 29,117,443
Unspent debt service property taxes levied		975,109
Unspent sinking fund property taxes levied		9,623,829
	Total	\$ 39,716,381

4. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS TO/FROM OTHER FUNDS

Interfund balances are transfers from the General Fund which, represent reimbursements of current year operating costs. Transfers to and from the General Fund are for various current year costs, such as, administration and overhead, recreation business service fees, return of unused budget and tax adjustments.

5. TAXES RECEIVABLE

Property taxes are levied on July 1 and December 1 on the taxable valuation of property as of the preceding March 1st. Taxes are considered delinquent on March 1st of the following year. At that time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

Delinquent real property taxes are collected via the delinquent tax revolving fund which is operated by the County of Washtenaw. At June 30, 2012, delinquent real property taxes receivable is \$421,896 and is recorded in the general fund.

Delinquent personal property taxes are collected and forwarded to the School District by the tax collection agencies. At June 30, 2012, delinquent personal property taxes receivable is \$362,728 and is recorded in the general fund.

Any amounts not collected, are fully reserved.

6. CAPITAL ASSETS

Capital asset activity of the School District's Governmental activities is as follows:

		Balance June 30, 2011	Additions	Disposals and Adjustments	Balance June 30, 2012	
Land – not depreciated	\$	2,477,822			2,477,822	
Capital assets being depreciated:						
Land Improvements		32,901,567	1,348,198	853,328	33,396,437

Depreciation expense was charged to activities of the school district (primary government) as follows:

Governmental activities		
Instruction	\$ 1	7,299,759
Support		452,407
Unallocated		118,776
Total governmental activities	\$ 1	7,870,942

Construction Commitments – The School District has active construction projects at year-end. At year-end, the School District's commitments with contractors totaled \$5,681,997.

DEFERRED REVENUE

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	was the same	Major	Funds Nonmajor	Total
		Combined General		
<u>Unavailable:</u>				
Delinquent personal and real property taxes not available to finance 2011/12 operations Grant Program receipts not available to finance	\$	339,155		\$339,155
2011/12 operations		1,306,412		1,306,412
Unearned: Grant Programs receipts in excess of current year expenditures Local receipts in excess of current year		134,869		134,869
Expenditures	·		17,350	17,350
TOTAL	\$	1,780,436	17,350	1,797,786

8. COMPENSATED ABSENCES

The liability for compensated absences reported in the district-wide statements consists of unpaid, accumulated termination of employment, vacation and sick leave balances.

Termination Pay

Certain employees are entitled to receive a lump sum payment upon termination of employment with the School District. The amount is generally based on the employees' current wage rate and number of years of service accumulated as of June 30, 2003. Expenditures for accumulated termination pay are budgeted and paid on an annual basis. Total termination pay expense, net of salary increases, including related FICA, was \$943,939 for the year ended June 30, 2012.

Accumulated Vacation

Employees other than instructors accrue vacation based on number of days worked and seniority. Accumulated vacation days lapse at year-end for School District administrators and unclassified personnel. However, such groups are permitted to carry over a maximum of twenty unused vacation days. All other non-instructor employee groups accrue vacation days during the current fiscal year.

Sick Leave

School District employees are entitled to accumulate unused sick leave days. Subject to variations among different classes of personnel, employees with ten or more years of service who retire or terminate employment are paid a per diem rate for a percentage (50%-70% range) of their accumulated sick leave days, based on contract language.

The following table details the portion of accumulated termination, vacation and sick leave pay considered a liability for all School District employees at June 30, 2012, included in the Government wide statements:

	Major Funds		Nonmajor Funds	Total	
Termination Pay	\$	5,451,454	94,293	5,545,747	
Vacation Pay		545,272	42,772	588,044	
Sick Pay		1,137,968	81,017	1,218,985	
Total Compensated Absences	\$	7,134,694	218,082	7,352,776	

9. CONTINGENT LIABILITIES (RISK MANAGEMENT)

Workers' Compensation

The School District has a self-insurance plan for workers' compensation claims. Under the plan, the maximum claim loss of the School District is limited to the amount not covered by the District's excess insurance carrier. The estimated potential liability under the plan for pending cases (including IBNR) was approximately \$687,845 at June 30, 2012. Generally accepted accounting principals require an amount to be determined for claims that have occurred but have not yet been reported (IBNR) as of the date of the financial statements. The School District's workers' compensation expenditure, for the general fund, was \$664,016 for the year ended June 30, 2012.

Changes in the balances of potential claims of the District during the past year, are as follows:

	6/30/12	6/30/11
Potential claims, including IBNR, beginning fiscal year Increase in estimated liability-net of claims incurred	\$ 508,628	660,730
and claims paid	58,406	108,145
Increase (decrease) in IBNR	120,811	(260,247)
Potential claims, including IBNR, end of fiscal year	\$ 687,845	\$ 508,628

Medical Self Insurance

The School District purchases commercial insurance for medical payments and, as of July 1, 2004, maintains a partially self-insured medical program for certain employees. The premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts. Under this plan, the School District's maximum loss is limited to \$50,000 per family. Losses in excess of this limitation are fully insured.

Changes in the balance of potential claims of the District, for the past year, are as follows:

	6/30/12	6/30/11	
Estimated liability - Beginning of year	\$ 0	0	
Estimated claims incurred, including changes in estimates Claim payments	601,972 (601,972)	3,501,474 (3,501,474)	
Estimated liability – End of year	\$ 0	0	

In addition, the School District is exposed to various risks of loss related to property loss, torts, errors and omissions. The School District has purchased commercial insurance for these potential losses. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Legal Actions

The School District is a party to several legal actions. In the opinion of management the School District has adequate insurance to cover most of the legal actions and does not believe that settlement of any legal actions will materially affect the School District's operations or financial position.

Page 27 Continued

Property Tax Appeals

Several appeals of property tax assessments are currently pending before the Michigan Tax Tribunal. The School District would become liable to refund any taxes collected due to over-assessment. The Taxable Value (TV) under appeal within the City of Ann Arbor, the School District's primary source of property tax levies, was approximately \$119 million, as of June 30, 2012. Management is unable to estimate the amount in property tax revenues, which could be subject to refund, if the tax tribunal determines an over-assessment.

10. GENERAL LONG-TERM OBLIGATIONS

The District issues bonds, notes and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Other long-term obligations include compensated absences, workers' compensation claims, medical self-insurance and legal actions.

The following is a summary of all general long-term obligations outstanding as of June 30, 2012 and bonded debt activity for the year then ended.

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year

Current Refundings – During the year, the School District issued \$93,230,000 in general obligation bonds with interest rates ranging from 4 percent to 5 percent. The proceeds of these bonds were used to advance refund \$100,275,000 of outstanding 2004 serial bonds with interest rates ranging from 4.50 percent to 5.25 percent. The net proceeds of \$109,666,027 (after payment of \$601,221 in underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities and were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the School District's long-term obligations. The advance refunding reduced the total debt service payments by approximately \$11,616,405, which represents an economic gain of approximately \$9,293,555. At June 30, 2012, \$100,555,500 of bonds outstanding are considered defeased.

Page 28 Continued

The requirements by fiscal year to amortize obligations outstanding except compensated absences, retirement, workers' compensation claims, medical self-insurance and legal actions as of June 30, 2012, are as follows:

		Total Debt	Total Interest and Paying Agents Fees	Total Requirements
2012-13	\$	9,745,000	8,518,503	18,263,503
2013-14		10,360,000	8,266,524	18,626,524

	\$	185,645,000	81,640,270	267,285,270

11. BUDGETARY DATA

Annual budgets are legally required by State statute for the General and Special Revenue Funds. In addition, the District adopts a budget for the millage portion of the Capital Projects Fund on an annual basis and adopts a budget for the bond portion of the Capital Projects Fund upon receipt of the bond proceeds. Each year before the start of the fiscal year on July 1, the formal budget is adopted through resolution by the Board of Education. The budget is adopted at a departmental level. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budgets were amended in a legally permissible manner.

The General fund budget was adopted including the budget for the Athletic Programs. The actual results, as well as the budgets, are reported as required by GASB Statement No. 54, as part of the General fund on the statement of revenue, expenditures, and changes in fund balance.

The policy of the Board of Education is to preserve as a minimum general fund balance (cash) an amount which is no less than an amount equal to 15% of the total operating costs of the School District. As of June 30, 2012, total operating costs and unassigned fund balance are \$186,437,002 and \$9,956,121, respectively. The unassigned fund balance necessary to adhere to the Board of Education Policy is approximately \$28 million.

Cash Flow Allocation – The School District allocates a portion of the General Fund fund balance for future cash flow. The School District begins to receive a portion of their summer tax collections in mid August. However, the School District's new fiscal year and operations begin July 1st. An analysis of cash flow requirements indicate that the District maintain a portion of its General Fund fund balance equal to approximately 45 days of operating expenditures.

All budget information is presented as was originally adopted by the Board of Education on June 8, 2011 or as subsequently amended. The General Fund budget was adjusted during the year as follows:

	As Originally Adopted	Adjustments During the Year	Final Budget
Revenue and other financing sources Expenditures and other financing uses NET BUDGET BALANCE	\$ 182,810,000 (183,615,000) (805,000)	956,800 (2,200,000) (1,243,200)	183,766,800 (185,815,000) (2,048,200)

Page 29 Continued

The combined General Fund, the 2005 Sinking Fund, the 2004 Bond Debt Payment Fund, the 2004 Bond Debt Refunded Payment Fund, the 2002 Sinking Fund, the Millage and Capital Needs Fund, the 2006 Capital Project Bond Fund, the 2004 Capital Project Bond Fund, the 1995 Bond Capital Project Bond Fund, the 1990 Bond Capital Project Fund and the G. O. Bond Capital Projects Fund had excess of expenditures over revenue and other financing sources in the amount of \$3,865,607, \$6,007,814, \$198,121, \$43,900, \$439,751, \$143,596, \$3,872, \$337, \$82,316, \$17,803, and \$51,188, respectively. The Food Service Fund and the 2004 Bond Debt Refunded Payment Fund have a cumulative fund deficit of \$442,093, and \$43,900 respectively.

12. DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS

Plan Description - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District.

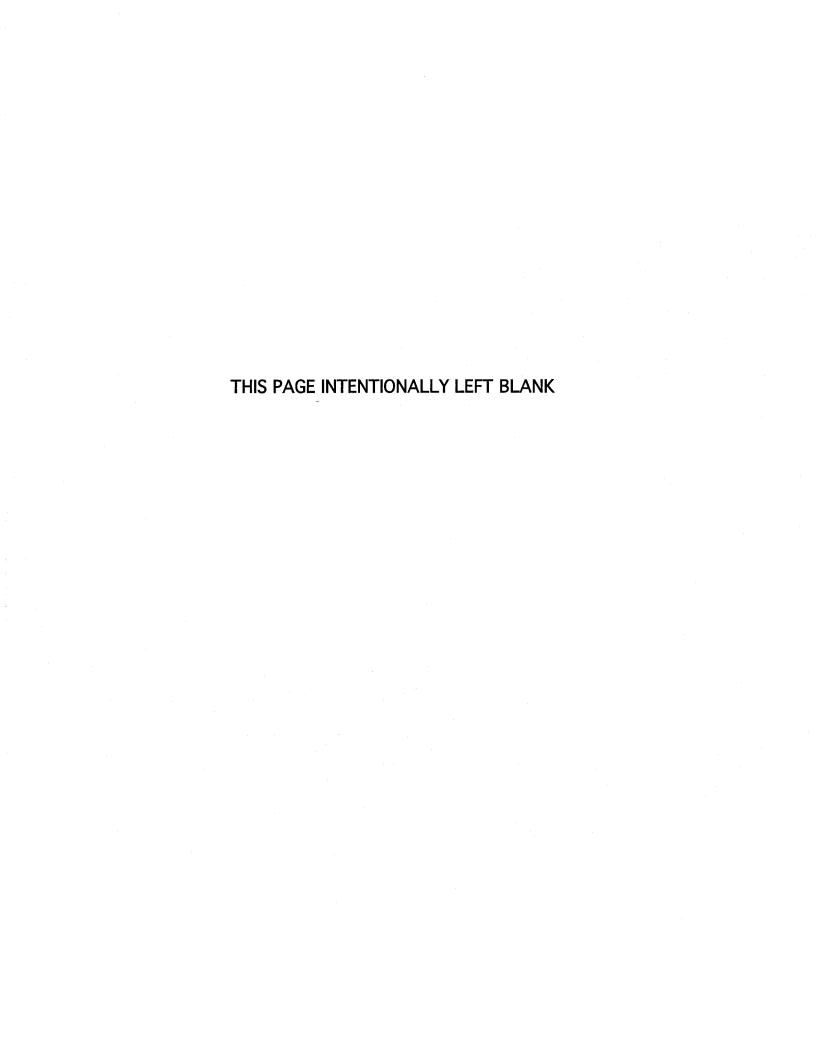

The system provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The system also provides post-employment health care benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the pension and post employment health care plans. That report is available on the web at http://www.michigan.gov/orsschools, or by writing to the Office of Retirement System at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

Pension Benefits - Employer contributions to the pension system result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits The employer contribution rate for basic plan members was 12.16 percent of covered payroll for the period from July 1, 2011 through September 30, 2011 and 15.96 percent for the period from October 1, 2011 through June 30, 2012. The employer contribution rate for pension plus plan members was 10.66 for the period from July 1, 2011 through September 30, 2011 and was 14.73 from October 1, 2011 through June 30, 2012. Basic plan members make no contributions, but Member Investment Plan members contribute at rates ranging from 3 percent to 4.3 percent of gross wages, or up to 6.4 percent of gross wages for members entering the MIP Plus plan on or after July 1, 2008. The School District's required and actual contributions to the plan for the years ended June 30, 2012, 2011, and 2010 were \$17,596,857, \$13,223,363, and \$13,075,368, respectively.

Postemployment Benefits - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS Board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate was 8.5 percent of covered payroll for the period from July 1, 2011 through June 30, 2012. The School District's required and actual contributions to the plan for retiree health care benefits for the years ended July 30, 2012, 2011, and 2010 were \$9,929,450, \$9,137,238, and \$8,882,529, respectively.

SCHEDULE OF BONDED INDEBTEDNESS JUNE 30, 2012

Note 1

Bonds due May 1, 2005 through 2014 mature without option of prepayment. Bonds, due May 1, 2014, are callable, in portions of \$5,000, in any order or any interest payment date on or after November 1, 2013. Bonds called for redemption shall be redeemed at par plus accrued interest.

Note 2

Bonds due May 1, 2006 through 2014 mature without option of prepayment.

Note 3

Bonds due May 1, 2007 through 2017 mature without option of prepayment. Bonds, due May 1, 2017, are callable, in portions of \$5,000, in any order or any interest payment date on or after May 1, 2016. Bonds called for redemption shall be redeemed at par plus accrued interest.

Note 4

Bonds due May 1, 2009 through 2019 mature without option of prepayment. Bonds, due May 1, 2019, are callable, in portions of \$5,000, in any order or any interest payment date on or after May 1, 2018. Bonds called for redemption shall be redeemed at par plus accrued interest.

Note 5

Bonds due May 1, 2015 through 2023 mature without option of prepayment. Bonds, due May 1, 2023, are callable, in portions of \$5,000, in any order or any interest payment date on or after May 1, 2022. Bonds called for redemption shall be redeemed at par plus accrued interest.

Note 6

Bonds due May 1, 2013 through 2022 mature without option of prepayment.

SCHEDULE OF COMPARATIVE STATISTICS YEARS ENDED JUNE 30, 2012, 2011 AND 2010

Note 1 -	Number of pupils based on a blended membership count (February - previous fiscal year and September/October- current fiscal year).
Note 2 -	Information presented on a general fund budgetary basis which does not include grant programs. Budgets for grant programs are prepared using a different fiscal year than the School District.
Note 3 -	Instructional support services include pupil health, guidance, psychological, library, media, etc. Other support services include principals, administration, transportation, fiscal services, operation and maintenance of buildings.
Note 4 -	Transfers and other transactions are included in the cost per pupil for instructional support. These items represent student tuition and subsidies for student activities and grant programs.
Note 5 -	Property tax revenue for the debt service and sinking funds includes Scio Township's Downtown Development Authority.
