500 copies printed @ \$0.08 each for a total cost of \$40

## What Is Being Done?

M-52 improvements in the Village of Manchester will include reconstruction of almost 2 miles of pavement between Austin Road and Dutch Drive, realignment of the M-52/Main Street intersection, bridge repairs over the River Raisin, drainage improvements, water main and guardrail replacement, and sidewalk reconstruction.

In addition, there will be streetscape enhancement projects on M-52 between Duncan Street and the Chi-Bro Park, and on Main Street between M-52 and Elton Street. Improvements include the addition of brick pavers, decorative lighting, benches, trees and other street amenities.

## When Will This Be Done?

Construction is expected to start in April and last until November.

## How Will Traffic Be Affected?

One lane of traffic will be open during construction on the M-52 bridge over the River Raisin using temporary traffic signals. Bridge repairs are expected to take until early summer to complete.

One lane of southbound traffic will be open between Hibbard Road and Dutch Drive. Northbound traffic will be detoured via Hibbard Street and Dutch Drive. Work will be completed in segments to minimize the impact on motorists and residents.

MDOT and the Village of Manchester want to remind everyone that while M-52 is under construction, Manchester is still open for business. Parking is available within easy walking distance of downtown businesses.

## Long-term Benefits

MDOT's 2012 road and bridge program supports the creation of jobs, growth of the economy, preservation of the environment and the safety and security of the transportation system.
